Support Grows for the RSC's *Economic Recovery Act* *'Small Business and Entrepreneurship Council' and 'American Conservative Union' Give Support*

Washington, D.C. – Already enjoying the support of Americans for Tax Reform, the National Taxpayers' Union, FreedomWorks, and Club for Growth, two more prominent groups promoting economic growth have come out in support of the Republican Study Committee's solution to our economic troubles.

In endorsing the RSC's *Economic Recovery Act*, the groups said:

SBE Council: *"The Small Business & Entrepreneurship Council enthusiastically endorses the Economic Recovery and Middle-Class Tax Relief Act of 2009. With our economy and small businesses struggling, public policy needs to focus on boosting the incentives for entrepreneurship and investment. After all, private-sector risk taking is the true source of economic growth and job creation.*

"The Economic Recovery and Middle-Class Tax Relief Act is properly directed toward helping entrepreneurs and small businesses access capital, maintain and create jobs, invest in their firms and remain efficient and competitive during this very difficult economic period."

ACU: *"At a time when Congress is being pressured to support a trillion dollar spending bill based on discredited 70 year old New Deal economic theories, your introduction of the "Economic Recovery and Middle Class Relief Act of 2009" comes like a breath of fresh air.*

"Although liberals in the Congress and the new Obama Administration pay lip service to supporting programs that benefit hard-working middle-class taxpayers, their proposals primarily benefit government bureaucrats and left wing interest groups who will be granted contracts to carry out their agenda along with a few temporary tax credits that penalize people making more than \$75,000 per year.

“Real growth will come from the private sector and your proposal includes real help for middle class taxpayers and small business owners.”

Note: The Republican Study Committee has introduced the *Economic Recovery and Middle-Class Tax Relief Act*, legislation based on three main themes: 1) Support Families through Tax Relief; 2) Provide Economic Relief for American Businesses and Entrepreneurs; and 3) Save Future Generations from a Crushing Debt Burden.
